The Newly Updated "Red" Book

Dedicated to:

Marjorie Mican Matula

and

Pauline Haas Bluhm

For without their intense dedication to developing "The Red Book"-a genealogy of the Joseph Franz and Pauline Seidel Dierschke Family-this book would not have gotten started.

And it is not finished. Family updates and new photos come in weekly. And even when it is "finished" of course it really won't be as every day something changes.

Every effort has been made to be accurate. Please write or email me if something needs to be updated.

And please, keep sending in the updates and photos. The goal is to have every family member listed and a picture for each.

Hope you enjoy it.

Introduction

The following pages list data for all known family members as of June 17, 2017.

Each immediate family is presented in their own section that contains a graphical family tree as well as a description with information about each referenced person and their children. The child section provides information about the children of the preceding couple. When a child has offspring of their own this is presented in a separate family section for that child. In this case a '+' is used to denote that an individual will appear later in the book as a parent with his/her own children and there is a link to the appropriate family reference number. For children with partners but no offspring the partner data is given with the reference family. Roman numerals, followed by a period, are used to indicate the birth order.

In the chapter titled "Family of the Starting Person" the ancestors of Joseph Dierschke and Pauline Seidel are presented in a kind of enhanced Pedigree Chart which displays the graphic representation of their direct-line ancestors and the children of the couple. This chapter contains information about the couple whose offspring are listed in the later chapters.

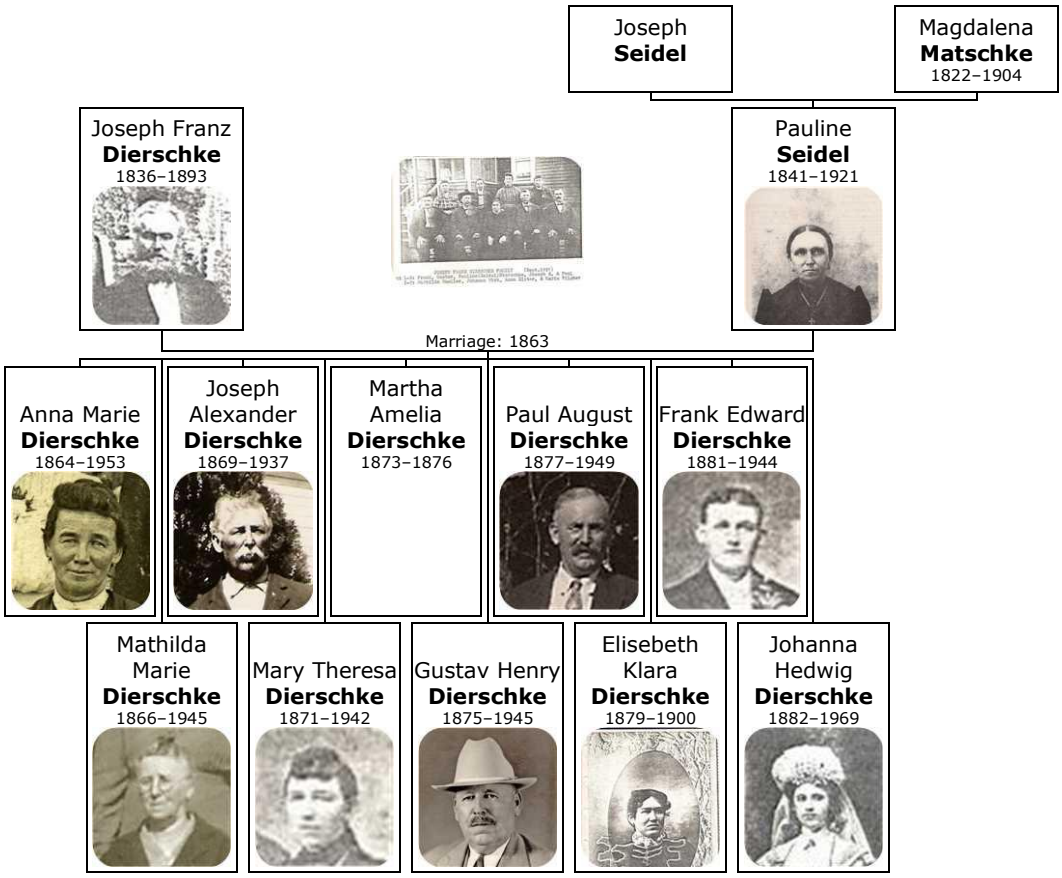

The chapter titled "Families of his Descendants" provides details (as known as of the publication date) for the offspring of Joseph Dierschke and Pauline Seidel. There is a chapter for each generation. Relatives are listed in the order of the nearness of their relationship.

Sources for the information provided are given in the footnotes.

This document reports the details of 2361 individuals, of whom 1176 are male and 1180 are female. The sex of 5 individuals is unknown. Of the 325 individuals with recorded birth and death dates, the average lifespan was 62.17 years. Of these, 179 males averaged 63.74 years, and 145 females averaged 60.65 years. The longest living male was Paul Conrad Max Klare Jr. (1913–2010), who died aged 97. The longest living female was Eleanor Elizabeth Dierschke (1899–1997), who died aged 97.
